

HEALTH PROMOTION & COMMUNITY WELLNESS BUREAU

Our Philosophy: We believe healthy communities strategies and policy, systems, and environmental change strategies are an effective and cost-reducing means of promoting health and advancing wellness.

The Mission of the **Solano County Health Promotion and Community Wellness Bureau** is to maximize personal and community wellness by promoting healthy behaviors and environments in our county.

The Health Promotion & Community Wellness Bureau assesses, plans, implements and evaluates effective health education, policy, systems and environmental change programs and initiatives. The majority of our work is community-based within Solano's diverse neighborhoods, with an emphasis on health equity.
