AG OP 80-111

PREAMBLE:

[California Senate Bill 80](#) (SB 80), (Chapter 27, Statutes of 2019), established the first state Aging and Disability Resource Connection (ADRC) Infrastructure Grants Program in 2019. The ADRC program develops coordinated networks of programs and services (No Wrong Door Systems) to serve the needs of older adults, people with disabilities and caregivers in navigating the fragmented/complicated system of long-term services and supports and achieving their personal goals and preferences for healthy aging. It enables consumers to access all long-term services and supports (LTSS) through one agency, organization, coordinated network, or portal.

[California Welfare and Institutions Code, Section 9121](#), requires the California Department of Aging (CDA) to award grants to interested and qualified Area Agencies on Aging (AAA) and Independent Living Centers (ILC) to complete the planning and application process (as an Emerging ADRC) for designation and approval to operate as an ADRC program. In addition, grant funds may also be awarded to aid Designated ADRCs in expanding or strengthening services for the purpose of implementing a No Wrong Door (NWD) System.

The purpose of the contract is to support Emerging and Designated ADRCs in developing, implementing, and sustaining a local No WrongDoor (NWD) system that enhances consumer access to existing long-term services and supports options through funding from the ADRC Infrastructure Grants Program pursuant to the California Welfare and Institutions Code Sections 9120-9122. Access is defined as:

- Connecting individuals to existing LTSS options;
- Support for navigating the healthcare and long-term care system;
- Enhancing and/or converting service delivery models (i.e., converting to virtual and/or web-based services) to overcome consumer challenges in obtaining existing LTSS options;
- Adopting system change initiatives to improve care coordination for consumers and provide streamlined access to existing LTSS options;
- Improving coordination and integration between healthcare and long-term care service providers; and
- Establishing consumer-friendly entry points, or new interfaces, for people seeking LTSS options at the community level.

If the material is copyrighted with the consent of CDA, the State reserves a royalty-free, non-exclusive, and irrevocable license to reproduce, prepare derivative works, publish, distribute and use such materials, in whole or in part, and to authorize others to do so, provided written credit is given to the author.

ARTICLE XVII. COPYRIGHTS AND RIGHTS IN DATA (Continued)

4. The Contractor certifies that it has appropriate systems and controls in place to ensure that State funds will not be used in the performance of this contract for the acquisition, operation, or maintenance of computer software in violation of copyright laws.

B. Rights in Data

1. The Contractor shall not publish or transfer any materials, as defined in paragraph 2 below, produced or resulting from activities supported by this Agreement without the express written consent of the Director of CDA. That consent shall be given, or the reasons for denial shall be given, and any conditions under which it is given or denied, within thirty (30) days after the written request is received by CDA. CDA may request a copy of the material for review prior to approval of the request. This subsection is not intended to prohibit the Contractor from sharing identifying client information authorized by the participant or summary program information which is not client-specific.
2. As used in this Agreement, the term “subject data” means writings, sound recordings, pictorial reproductions, drawings, designs or graphic representations, procedural manuals, forms, diagrams, workflow charts, equipment descriptions, data files and data processing or computer programs, and works of any similar nature (whether or not copyrighted or copyrightable) which are first produced or developed under this Agreement. The term does not include financial reports, cost analyses and similar information incidental to contract administration, or the exchange of that information between CDA and the Contractor to facilitate uniformity of contract and program administration on a statewide basis.
3. Subject only to other provisions of this Agreement, the State may use, duplicate, or disclose in any manner, and have or permit others to do so subject to State and federal law, all subject data delivered under this Agreement.
